THE "OTTAWA SPOTLIGHT"

(Weekly Review of National Affairs)

By M. McDOUGALL

Ottawa, August 7— The most disturbing of all domestic affairs with which the government has been actively concerned in the past few days have been the labor troubles in three centres, the aluminium plant at Arvida, Quebec, the coal mines in Cape Breton and the steel car plant at Hamilton, Ontario. In each case special questions are involved. Investigation during the next few days will disclose whether there was a wilful attempt at sabotage at Arvida. In Cape Breton a point at issue is an old right of having a final decisive wage plebiscite among the miners on arrangements made by mine unions with employers. The cardinal point about the trouble at all three centres is that the strikes have seriously affected Canada's war effort. They have held up production of vital supplies, and the country is anxious and determined to have the disturbances settled without further delay. At Arvida the men are back at work but golden hours have been lost. The minister of Labor Norman McLarty has gone to Cape Breton to try to straighten out the mess there and at the time of writing affairs seem to be reaching a climax at Hamilton. It is hoped discussions of labor department officials with representatives of labor and employers will put an end to the present impasse.

The Duke of Kent, the brother of the King, is now well launched on his air tour of the joint air training schools of Canada. He will not be able to see them all. Time will not permit, but before he returns to London in six weeks time he will have inspected a large number of training cetres which have been sending an increasing flow of trained airmen across the ocean to the air battle line. The Duke who is an air commodore of the R. A. F. on the staff of the inspector general of the air force in Britain, said in Ottawa that the British people were "fully conscious of the great value of Canada's contribution to our joint cause in having thought out and put into operation the vast Commonwealth Air Training Plan. The royal duke who has visited this country twice before and has a number of friends on this side of the water, is very youthful in appearance, very good looking, is modest in demeanor and has an engaging smile.

Canada's wheat carryover at the end of the crop year, that is on July 31, will be shown to be under 500 million bushels. The bureau of statistics has not yet made its final returns, the item of uncertainty being the amount still in the hands of the farmers. Some months ago it was predicted that the surplus would be about 575 million bushels, but as the year progressed exports to the United Kingdom were substantial and well maintained. Up to July 25 these exports were 20 million bushels over the amount shipped in the same period of the previous year. Another point of interest in regard to the wheat situation is that the 15 cents a bushel processing tax on wheat milled for domestic consumption is abolished. This is done to avoid a threatened increase in the price of bread. Costs of shortening, sugar and wages had risen and it was said that bakers would have to raise wheat prices unless the processing tax was dropped. Some farming organizations had asked that the processing tax be increased to 50 cents a bushel. The 15 cent tax had brought in a return of about 5 million dollars which had aided in the government's wheat financing plans. The condition of western crops caused by heat and inadequate rainfall is of course a matter of paramount interest to Ottawa at this time. In connection with the harvest it is pointed out that the earlier estimate of a reduction in wheat acreage of about 23 per cent is believed to be about accurate.

Observers in the capital find difficulty in understanding why there has been such a fuss over the gasoline restriction regulations. It isn't that there has been much opposition to it, but what they cannot fathom is why the cut in consumption has not been more prompt and complete. Britain took gas restrictions in its stride. The oil controller, G. R. Cottrelle, however, says that the reduction in the first ten days across Canada has been about 15 per cent, and in the larger centres 30 per cent, and with the spirit of cooperation being shown he predicts rationing won't be necessary.

The appointment of Walter P. Zeller, a business man of standing, as an executive assistant to Minister of War Services, J. T. Thorson, has met with general approval. He will be in administrative charge of the tourist policy of the Dominion. The Canadian travel bureau has been and will continue to be in the capable hands of Leo Dolan, but with Mr Zellar in charge of administration Mr Dolan will have more time to carry out his extremely important work of propaganda and advertisement. The tourist traffic is of such importance to this country and its development is such an immense task that there is plenty of scope for both officials.

Minister Thorson has announced also that all war charity organizations will combine in a single annual drive for funds. This will be in the spring, while community chests and other civilian welfare organizations will appeal for funds in the autumn. The rest of the year will be left oppen for the government to launch its loan drives. The Canadian Red Cross Society, whose humanitarian activities in wartime are in the words of the Minister "above praise", has joined with the other war auxiliary bodies in the spring drive. The Red Cross has been sending ten thousand boxes weekly to British prisoners of war. It is now raising its shipments weekly to thirty-five thousand.

DALEMEAD

Miss Olive Vanalstine was the guest of honor on Sunday afternoon August 3rd at the home of Miss Dalphene Vander Velde. A supper was served, this being her twenty-first birthday. The afternoon and evening was enjoyed by all. Those present were— The honored guest Miss Vanalstine, Miss Ethel Miller, Miss Irene Hahle, Miss Dalphene Vander Velde, Mr Roy Hahle, Mr Melford Gosling, Mr Irving Gosling, Mr Kenneth Poulson, Mr Morley Miller, Mr Wesson Miller and Mr Homer Newton.

We join in wishing Miss Vanalstine many more "Happy Birthdays."

TOWN COUNCIL HOLD REGULAR MEETING

Power Rate Effective Next Reading

FINANCIAL STANDING OF TOWN IS SOUND

With one of the longest agendas on teh table for some time, Council looked forward to a midnight or better session at their meeting on Tuesday evening. However, cutting out all side issues, and sticking straight to business, the whole matter was finished at a reasonable hour.

Tenders having been submitted for the building of a concrete sidewalk on Sixth Street from Second to Third Avenues, they were examined at the meeting, and the contract awarded to M. S. Hirtle, the work to be completed by September 15. The town property committe were asked to see that the walk in all places should be higher than the boulevard, to allay the danger found in other places of melting snows freezing on the concrete. Rebuilding the plank sidew lk on 3rd Street from Second to Third avenues at four feet was left to F. Jones. The new walk will be built in the centre of the previous six foot strip, and entrances to houses will be built in to meet existing walks.

A motion was passed allowing a discount of three per cent on a l 1941 taxes paid before October 31, of this year.

Bylaw No. 216, an amendment to the franchise of the Calgary Power Company in Strathmore, changing the domestic rates from their present status to a basic minimum of $2.80 per month with a discount of 30 cents for prompt payment, including the first twenty kilowatt hours and a charge for anything over twenty of two cents per kwt. hr., was read a second and third time and passed. The new rate will go into effect with the September billing, that is, the account starting on August 18, when the light bills are normally on the jump. This action was taken to allow the smaler consumers, the benefit of smaller consumption during the summer months, at the present smaller minimum charge. The new rate, figured on last year's total consumption, will save something like seven to eight hundred dollars annually to the citizens.

A report on the tax sale was read, and revealed that all lands going through the tax sale proceedings do not become property of the town for one year after the sale, during which time the owner may redeem. Town has the right to rent this property for one year.

Reporting on the Locker Plant, the Secretary said that no response had been received from the owners, nor had anyone bid on the plant.

The Council were anxious to see that the users of the locker were fully protected, and their equity retained. It would be quite serious if the affair were shut off, owing to the large quantity of perishable goods in the plant. In this connection, one of the councillors was asked to see the Johnson Investments Company of Calgary, who own the building, and see what position they will take. Johnson Investments own the building only, the plant and equipment are property of the Cold Storage Locker Plant Co. In order to see that nothing can be done to harm the interests of users without giving them full warning, the Town Solicitor was asked to see what could be done about legally tieing up the equipment so that it could not be moved precipitately.

Permission was granted giving the Secretary power to collect the education tax. The Financial Statement for the first six months of the year, was read and showed the town is in a very favorable position. Taxes have been coming in very well, and the bank balnce is better than at the same time last year.

The handyman is on holiday this week.

There have been a number of complaints concerning cattle and horses running loose and causing various forms of damage. Gardens, trees on the boulevards, drill field in the skating rink, park property, and apparently even 'Go Slow, Children' signs have all come in for their fair share of destruction. Since owners seem to think the matter has approached the point of a joke, and do nothing whatsoever about it, instructions were issued to have the animals impounded and expenses charged to the owners.

Motion was made to lease a plot of land in the Hoffman subdivision for one year.

In accordance with a request received from the A. M. A. the Secretary was asked to write a letter to the Provincial Government asking that more and better roads be built, in order to help invite the tourists who are willing to come.

Permission was granted the M. D. Bow Valley to run a gravel entrance into their machine shed. Concrete, it was shown, was completely impractical, and a gravel bed could be easily maintained at sidewalk level.

One hundred and fifty feet of new fire hose arrived on Tuesday, and two lengths of repaired hose were received back. One of the largest turnouts on record was shown at the firemen's meeting on Tuesday, and while there are still a few vacancies on the department, the fire chief is gratified at the way things are progressing.

Accounts to the amount of $193.00 were passed, and one was turned over to the town property committee to be checked, and brought back to the next meeting.

WEDDING

SOWDON — MARCUM

All Saint's Anglican Church, Winnipeg, was the scene of a very pretty wedding at 5 o'clock Saturday afternoon, August 2nd, when Mildred Lillian, second daughter of Mrs Mary Marcum of Strathmore, became the bride of Lieut. Arthur Francis Sowdon, only son of Mrs A. Sowdon, of Montreal. Rev. J. O. Anderson of Winnipeg officiated.

The bride, who was given in marriage by Mr C. H. J. Winter, looked charming in a brown and white redingote with beige accessories. She wore a corsage of green orchids.

Mrs C. H. J. Winter, the matron of honor, wore a grey and white print redingote with brown accessories and a corsage of rosebuds.

The groom was attended by Lieut. Rosa Campbell.

Following the wedding the bridal party motored to Moore's Cafe, where the reception was held. The bride's table was centred with a three tier wedding cake.

Receiving with the bride and groom, was the groom's mother, Mrs A. Sowdon. For the occasion of her son's wedding Mrs Sowdon chose a blue redingote with white accessories, and a corsage of roses.

After a short honeymoon spent in Winnipeg Lieut. and Mrs Sowdon returned to Brandon. Lieut. Sowdn is at present stationed at Camp Shilo.

Lieut. and Mrs Sowdon have many friends in Strathmore who will unite in extending all good wishes for a happy future.

CANADIAN NATIONAL EARNINGS SHOW INCREASE

The gross revenues of the all-inclusive Canadian National railways System for the week ending July 14, 1941, were ---------- $5,543,909
as compared with ---------- $5,494,501
for the corresponding period of 1940, an increase of ---------- $49,408

AIR CADET TRAINING

Boys from 15 to 18 years will be called to join a corps of air cadet training, in Calgary beginning September next.

Training has been planned for after school hours of from 1 to 2 hours, two days a week.

It is planned thereby to have a group of boys at 18 ready to take on active R. C. A. F. training, having had this helpful foundation.

CALGARY POWER REDUCES LIGHT COST

The Calgary Power has reduced the rate structure from its present basis to a minimum charge of $2.80, subject to discount of 30c which charge includes the first 20 kwt. hours. Anything in excess of this runs 2c per kwt.

This will be a benefit to the large consumers of electric power. Thanks. Come again.

HIGHWAY IMPROVEMENT ABOUT FINISHED

The group of men and machines that have been grading, leveling, and gravelling the Eastern Highway to the Gleichen Corner, or 13 miles east of Strathmore, have now completed this portion. Th men and equipment will move at once to Gleichen and commence similar improvement working from the Gleichen end to meet the work completed here.

It is an excellent piece of roadwork, and all that is now required is hardsurfacing.

CARSELAND

Mrs Robert W. Runk of the Blind Creek community was suddenly bereft of her husband last Thursday forenoon. Mr Runk who was 79 had been working at the chicken house and was apparently overcome by the heat. He went into the house, sat down and suddenly expired. Thinking he was seriously ill, Mrs Runk who is well over seventy started to run to the nearest neighbor to secure help. The men were just coming from the field at noon and seeing Mrs Runk approaching, went for her in the car. Together they hurried to Mr Wilcox to phone for the doctor. On his arrival Mrs Runk was informed that her husband had passed away.

The funeral was held at High River on Saturday last.

Mrs Runk is at present being cared for by a neighbor Mrs Wilson, and is planning to go on to Calgary for a little while.

Mr and Mrs Runk came here from Illinois 35 years ago and celebrated their golden wedding 2 years ago. They were very highly esteemed in the community and much sympathy is felt for Mrs Runk in her loneliness and sorrow.

NAMAKA

Ladies Aid this month will be held at the home of Mrs Hanson.

The Canadian Sunday School Mission is holding a Summer Bible School in the School. The classes are from nine to twelve noon. Ages four to 20. This is undenominational and all are welcome. The workers in charge are Miss Gladys Erdmann and Miss Mary Toews.

The Namaka Red Cross shipment to Headquarters for July consisted of 4 turtle neck sweaters with sleeves; 1 turtle neck sweater without sleeves, 3 pairs mitts, 4 sheets, 10 girls coats, 5 quilts and 1 afghan, made and donated by the school children of the junior room.

Mavis Mackie is holidaying at Arrowwood.

Mr and Mrs Jack McBean of New Dayton spent the week end with Mrs Johnson, taking Katherine home with them. Also Marjorie Mackie to spend a couple of weeks.

The Alberta Pool Elevator is putting a foundation under their house which will be a great improvement.

Mr and Mrs Rae Buker and Valerie returned to Calgary Sunday taking Mrs W. H. Buker with them for a few days.

The Ike Fawkes family, the Kormack family and Mrs Mitchell spent Sunday at St. George's Island.

The Geo. McBean family spent the week end in Turner Valley leaving Don there for a week's holiday.

Several in the district have started combining.

All three grade nine students passed their exams. Congratulations.

Successful Garden Party

HARK— VOICES FOR THE RED CROSS!

From soldier, sailor, airmen, prisoners of war, the victims of bombed areas is heard —. Thank you — Thank you — Workers of Strathmore. If you carry on — you help us to carry on.

A smiling sun looked down on a gay scene on August 6th when a happy laughing throng filled the Patrick-McMurray lawns. Union Jacks, Red Cross flags and bunting created a very patriotic and attractive setting for the various games and attractions which comprised Bridge, Bingo, Clock-Golf, Tea, Darts, Hit-Hitler-Muss Mussi-Jip-Jap Throws, Fortune Telling, Home Cooking, Flowers, Candy, Superfluity table, Children's Raffle, Music by the Band and a dance in the evening.

A box packed with complete contents for a Prisoner of War parcel was an interesting exhibit.

Interesting representatives of John Bull and Uncle Sam were an added feature.

The Boy Scouts and Cubs gave valued help in various ways, and the young girls as Tea servitors played a busy and essential part.

Brilliant Flood lights illuminated the lawns at night, adding their rays to that of marvellous moonlight.

The Jewelry raffled by Canadian Legion was won by Mrs Raymond of Calgary, while Mrs Norman Taylor won the Wicker Doll Set.

The Red Cross motif was further carried out by a Red Cross centering each tea table.

The result of the afternoon and evening was most gratifying, the people attesting by their patronage their sympathy with this worthy cause.

J. B. ROBERTSON NEW PUBLISHER OF BASSANO RECORDER

Arthur Kent Smalley, who succeeded Floyd T. Cary, as editor of the Bassano Recorder, has enlisted in the R. C. A. F.

Mr J. B. Robertson of Agassiz, B.C. is succeeding Mr Smalley as publisher of the Recorder. Mr Robertson knows type in all its faces. We welcome him as a neighbor in the publishing field.

WORLD'S LARGEST POTATO FARM

SENDS FORCES MILLIONS OF PACKETS OF CRISPS

Two English villages, whose names are recorded in William the Conqueror's Domesday Book, today supply Britain's fighting forces with millions of packets of potato crisps.

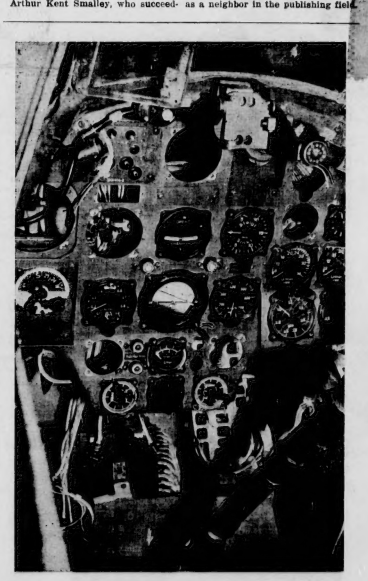
They come from 20,000 tons of potatoes, grown on the world's largest potato farm and producing about 125,000,000 packets of "crisps" a year. It is the biggest purely agricultural estate in England, covering an area of 7 1-2 miles long by 4 1-2 miles wide of the best Lincolnshire heath and fenland. It is served by a light railway, with 30 miles of track, 120 trucks and 5 Diesels engines, and it takes in the whole of the village of Nocton and most of Dunston.

All the potatoes from the estate, and the output of 80 other farms, are turned into "crisps" in ten factories distributed throughout Great Britain. There are two other factories in Australia, one at Sydney and the other at Melbourne. The English and Scottish factories use 40,000 tons of potatoes a year to produce 5,000,000 packets of "crisps" a week. They supply Britain's civil population as well as Service canteens and troop-ships.

A special variety of potato, the Nuizen, was imported from the Netherlands and this strain, now quite acclimatised to Britain, still gives the best results.

C.W.N.A. CONVENTION

President R. L. King was host to the Alberta executive of the C.W.N.A. when they met in Claresholm, July 26. The party was shown over the Claresholm airport. The annual convention will be held in Edmonton, October 10 and 11.



Illustrated above is the control panel of a German Messerschmidt 110, which was shot down over England. Considering that the average motorist has at best four or five gauges in front of him this would slightly confuse him

Hungerford Retires from Saddle

Montreal— It has been announced by W. H. Hobbs, secretary of the Canadian National Railways, on behalf of the Board of Directors that Mr S. J. Hungerford has resigned as president of the Canadian National System, including Canadian National (West Indies) Steamships Limited, Canadian Government Merchant Marine Limited and other subsidiary and affiliated companies, but will retain the position of chairman of the Board of the Railway, and that Mr R. C. Vaughan, now vice-president in charge of Purchases, Stores and Steamships, has been appointed President and Chief Executive officer of the National Railway Company and its steamship and rail subsidiaries. The appointment took effect July 24.

It has been announced that Mr Hungerford has resigned as president of Trans-Canada Air Lines and that Mr H. J. Symington, K. C., will succeed him as president of the airline. Mr Symington has been a director of T. C. A. since its inception.

Associated with these announcements the following statement was issued on behalf of the Board—

"In submitting his reignation to the Board Mr Hungerford stated— 'The responsibilities and activities of the Canadian National System are continuously expanding and the war has brough many new problems affecting the whole range of the railway's work. I feel that it is advisable that we take steps at this time designed to ensure continuity of executive judgment and action along through the present time of stress but also in the years ahead, and this can best be done in my opinion by the appointment now of a younger officer to be Chief Executive of the System'.

"The Board accepted Mr Hungerford's resignation with regret but were gratified that he would remain as chairman of the Board and that the Canadian National Railways would therefore continue to have the benefit of his great experience and knowledge of the affairs of the system. It was noted that he will continue as president of National Railways Munitions, Limited. The Board recorded their appreciation of the debt of gratitude which Canada and the National System owe to Mr Hungerford, whose outstanding constructive and operating abilities have played so important a part in the development of the System.

"The Directors of the National System were fortunate in being able to announce the appointment to the presidency of an officer having the exceptional qualifications for the post possessed by Mr R. C. Vaughan, whose railway career extends over some 42 years. In appointing Mr Vaughan to the Chief Executive office the Directors look forward with confidence to the continued development and success of the National System".

GENERAL MOTORS ON GAS ECONOMY

A few pastan etin shlu etain shrdlu cmfwyp vbgkqj.

1. Accelerate gently.
2. Do not stay in second gear beyond twenty miles per hour.
3. Decelerate a sufficient distance from your stopping point to allow the momentum of your car to carry you.
4. Drive at moderrate speeds.
5. —Keep your engine tuned up for best efficiency.
6. Keep your car well lubricated. Keep the tires inflated to the proper pressure.
7. Don't let your engine idle more than is necessary.
8. Do not postpone a necessary engine overhaul.
9. Avoid pumping the accelerator up and down.
10. Don't overfill the gas tank. Remember that gasoline expands with heat, and if you park your car in the sun, with the tank full, that expanding gasoline has got to go somewhere and that will be out the gas tank vent.

An old-fashioned Hebrew employer remonstrated when one of his employees asked for a raise on the ground that he worked too hard. "Why," protested the employer, "you have an easy time of it. Look! There are 365 days in the year. Eight hours each day you sleep. That makes 122 days, leaving 243 days. Eight hours of each day you have all for yourself. That leaves 121 days. I give you an hour for lunch every day and that amounts to 15 days more, leaving 106. You do not work on Sundays — 52 more days off, leaving 54. You get Saturday afternoons off—another 26 days, leaving 28 days. You have two weeks for vacation every summer and you take about a week off for sickness. Only seven days a year to work— and New Year's, Washington Birthday, Decoration Day, July 4th, Labor Day, Thanksgiving Day and Christmas are holidays. Besides you take your Kipper off. I should give you a raise? You owe me money."

CROWFOOT

Mrs Norman Scheer has returned home from Kelowna, B. C. where she has been visiting her sister Mrs J. Coops. She made the trip over the Big Bend Highway with Miss C. DeMarce.

Mr and Mrs George Savage and two children, who have been here from Red Lake, Ontario, visiting Mrs Savage's parents Mr and Mrs D. R. Garriott, returned home last Friday. During the month that they were here they visited the Calgary Stampede and spent two days at Banff.

Jack Whitelaw has been here for several weeks from Seattle, visiting his uncle and aunt Mr and Mrs Norman Scheer.

The C. H. S. ball team played two games of softball with Elwood last Sunday, the C. H. S. winning both games.

Vacation School which has been conducted by Rev. Rollis was brought to a close when the parents and friends of the pupils were invited to see and hear the work the children had done during the week.

Miss Myrtle Peppard of Calgary spent a few days in the district visiting at the homes of Mr and Mrs C. Garriott, and Mr and Mrs S. F. Garriott.

Mrs Charles Harvey has been spending a week with her sister and brother-in-law Mr and Mrs Frederick Harvey at Red Deer.

Word has been received from Jack Terry, a former C.H.S. member that he is now in the army and is stationed at Petawawa.

To Anzacs Who Lie in Crete

Far from their island homes, the hand of night
Has shut the eyes of those who would not cower,
As valiantly they fought a hopeless hour
To stem the ever-spreading Prussian blight.
It was their gallant, desperate task to fight
Against a Minotaur of fiercer power
Than ever did the Cretan youth devour,
And now they rest, hushed by his steel-girt might.

In hallowed earth they found an honored grave
Here, near the dawn-land of all liberty,
Where every wind sings something of the brave
From Salamis unto Gallipoli;
And where the gentle blue Aegean wave
Kisses some hero's shrine eternally.
—Jerome Maher, New York Times.

HE MIGHT SWIM!

Proprietor— "You come into my restaurant, you order a glass of vater, you drink it, and you calmly valk out."

Scot— "What were ye expectin' me to do mon? Stagger out!"

THE WEEK IN EDMONTON

● Gas Regulations—

Departmental representatives from all branches of the civil service met in emergency meeting last week to discuss gasoline regulations as they affect the service, and to formulate plans for the issuing out of current difficulties. Afterwards a spec'al committee headed by George A. Clash, director of government purchases was named to seek a remedy. As the regulations have been interpreted by the oil controller, civil servants whose duties take them to outside points in government cars must purchase their gasoline requirement under the head of pleasure cars ,paying cash on the spot.

This situation, it was pointed out, is causing dislocation of departmental accounting systems, since the customary method is to use credit cards. In addition, the spot cash ruling deprives the province of considerable revenue in the form of remissions of sales and excise taxes, and it was declared loss of this would throw out of balance the whole budgetary program of each department.

Mr Clash said when all suggestions received from departments are pooled, a workable plan will be introduced for consideration. Meanitme, the order has gone out to all field men to observe regulations and conserve fuel.

Under The Street Lamp

by P. E. (Pat) O'Hooley

"IF"

For Boys at Summer Camps

If you can keep your socks when all about you
Are losing theirs and blaming it on you
If, when the jam is gone and others doubt you,
You make allowance for their hunger, too;
If you can wait and not be tired by waiting
On table when the pantry's scant of pies,
And eat what's left without a trace of hating,
And yet don't look too good, nor talk too wise;

If you can play—and not make play your master;
If you can work—and not make toil your aim;
If, when your tent blows down in grim disaster,
You keep your smile in action just the same;
If you can stand to see the boughs you've broken
Stolen by knaves to make a bed for fools,
And with a word of banter fitly spoken
Go gather more with only borrowed tools;

If you can make one heap of all your bedding,
And air it on a fence rail by the wood;
And when it rains not talk about hard sledding;
And call a cinder in the coffee good;
If you can jump and run and swim and paddle,
And yet not throw waste paper in the yard;
Nor grumble at your leader in the saddle;
Nor ever say that anything is hard;

If you can put on "stunts"—and keep your virtue,
And never "wangle" out of work and such;
If neither bugs nor loving ants can hurt you,
If mealtime counts with you—but not too much;
If you can fill each swiftly passing minute
With sixty seconds worth of stainless fun;
Yours is the camp and everything that's in it,
And—which is more—you'll be a BOY, my son!

● Infantile Paralysis—

Parents worried over the advent of the poliomyelitis season have been assured that an adequate supply of serum is on hand for speedy use in case of an outbreak of of the dreaded disease, states Hon. Dr. W. W. Cross, minister of Health.

Although an epidemic is being experienced in Manitoba, centering in Winnipeg, oni yone case has broken out in Alberta, and this was of a milii charact er. . Advice to parents is to guard against over-tiredness in their children. Give them plent yof fresh air, sunshine and wholesome food, and call the doctor immediately in suspicious cases. Early diagnosis and treatment counts.

●According to officials of the provincial cancer diagnostic clinic, much good work has been done in areas where rural newspapers have acquainted their readers with details of the clinic's operaticon, and conditions of attendance and opening days. Patients attending these areas have arrived on the open days, equipped with the necessary documents frfom their own doctors.

Alberta farmers may find a new british market this year, according to department of agriculture officials.

Youth Training.

Alberta section of the dominion-provincial youth-training program will graduate a total of 6,100 students this year, of whom 1,600 are soldiers. Joint outlays of the two governments have amounted to $700,000 for this work, now vital in the time of mechanized armies and enhanced war production. Three types of training are given,— one for war industries, another for enlisted men, and the third for pre-enlistment training of ground crews. Alberta has seven centres with plant facilities, leading all other provinces in the work. The province is also leading in the manufacture of engine lathes, he added.

●One Local Appeal

Edmonton's Community Chest — with practically all local charity organizations in the membership—will function for the first time this year. Organizations participating will not make any individual appeal for funds after the mass drive is completed. Chairman of the publicity committee is Dan E. Campbe.l, provincial director of publicity. Seventy-five thousand dollars will be sought.

ALBERTA CROP REPORT

Alberta crops suffered a severe shock during the past week. Only the irrigated districts, the Peace River area and the extreme south survived the intense heat during the week without serious results. Central districts were most severely injured. Rainfall was negligible and deterioration was continuing in all areas at the date of this report.

In the eastern part of the province, from a point just south of Lloydminster westward to Tofield, and southward in an irregular line to Gleichen, and north-eastward to Sibbald less than half a crop is now possible even with immediate rain. Within this particular area crops from Lougheed to Czar, and in a large section centering around Ceasford, are conceded to be a practical failure in that the yield can only provide a very small return.

From Milo to Retlaw in the south, not more than half a crop can be expected even if weather conditions turn favourable. Stubble crops were burning in the extreme south but summerfallow was holding up with only slight injury.

The Peace River district also is beginning to feel the effects of the heat wave, but no appreciable damage had resulted in that area up to the week-end owing to the ample supply of moisture.

All areas with the exception of the extreme south and the Peace River district, suffered sharp declines in condition. Rain is urgently needed over the entire province.

Practically all wheat is now headed. Winter wheat cutting is expected to start in the south during the ensuing week. Spring wheat cutting in some cases may start in the south at the end of the month.

SHE CAN'T MISS

A woman who had married, in swift succession (1) a banker, (2) an actor, (3) a preacher, and (4) an undertaker, was asked why she went in for such varied types of men. She replied— "It's my idea of the cycle of life— one for the money, two for the show, three to get ready, and four to go."

Firestone CHAMPION TIRES

11% LONGER NON-SKID MILEAGE
27% STRONGER BOND BETWEEN TREAD AND CORD BODY
35% GREATER PROTECTION AGAINST BLOWOUTS
THOUSANDS OF SHARP-EDGED ANGLES PROTECT AGAINST SLIPPING

WHY pay more? Money cannot buy a safer tire. Why accept less? Firestone gives you extra safety, extra value and extra mileage at no extra cost!

And here's how:

Because only the Firestone Champion Tire has the amazing Gear-Grip tread which gives 11% longer non-skid mileage than any comparable tire Firestone has ever built. Its thousands of sharp-edged angles grip the road with a sure, firm hold and protect against skids and side slips. And, only the Firestone Champion Tire is built with the patented Safety-Lock Gum-Dipped cord body which provides 27% stronger bond between tread and cord body, and 35% greater protection against blowouts.

Replace dangerous, worn tires NOW. Have your nearby Firestone Dealer put Firestone Champion Tires on your car today and know that you are getting the last word in safety and economy.

VEGETABLE STORAGE

Home storage of vegetables is important at all times but it is of particular importance this year. It is an economical practice for those who grow vegetables to store sufficient of them for their own use and this year every effort should be made to store enough vegetables to last throughout the winter.

Vegetables both raw and cooked are essential to the health of the nation and every effort should be taken to see that all garden produce is properly harvested and stored for winter use.

OLDS SCHOOL OF AGRICULTURE OPENS OCTOBER 14th

The Provincial School of Agriculture at Olds will open for the 1941-42 term on October 14th. Students from all parts of the Province will attend the Olds School as the Vermilion School has been closed for the duration.

CANADA WELCOMES H. R. H. THE DUKE OF KENT

THE Duke of Kent, fourth brother of King George VI is a welcome visitor to Candan. He is primarily interested in inspecting the R. C. A. F. and everything connected therewith. Genuine, unostentatious, and keenly observant and thoroughly understanding, he is making friends on all sides, and strengthening the cause of The Empire.

ADDRESS SOLDIERS MAIL IN INK

IT WOULD seem as though the above request should be unnecessary, but a letter sent out by Post Master General Wm. P. Mulock states

One frequent cause of delay — a direct fault of the sender — is illegible addresses on mail matter.

It has frequently been found that pencil written addresses become smudged and unreadible during coourse of transmission, with the result that it is very difficult for the Canadian Postal Corps to effect delivery.

When INK is used there is less danger of the address fading.

HAVE YOU BOUGHT YOUR WAR SAVINGS CERTIFICATES ?

SALVAGING WASTE PAPER

DESPITE "racketeers" and careless packing, salvage is in a booming condition.

Of particular interest is an impending development in the paper market field. The National Salvage Office has just learned that a great many Canadian manufacturers and users of paper boxes insist on paper board made chiefly from wood pulp. Satisfactory paper board is being made from waste paper, however, and plans are now under way to make the industrial use of such paper board more widespread.

GAS CONSERVATION

THE GOVERNMENT HAS requested a fifty percent reduction of gas consumption.

Up to date, dealers state the reduction is about fifteen percent.

This is not enough.

In view of the urgent need for gasoline for aeroplanes of all kinds, and in view of the overwhelming importance of the work being carried on by the Air Force, towards Victory, it is a small request to make, and the wonder is the request is not the all out fifty percent.

But largely it is a matter of educating the public, and breaking the habit and desire to take the little pleasure spin. However, it must be done. If mild measures do not bring the needful result—then gas rationing will inevitably be brought into effect.

It would be more creditable for Canadians to adhere to the government request and Save Gas for Victory.

Finance Dept. Trying To Systematize Public Appeals For Money

●

Ottawa— The Canadian Red Cross Society has agreed to a request from the government not to proceed with a separate national drive for funds this autumn and to join with other auxiliary war services in one united appeal next spring, War Services Minister Thorson announced today.

To Systematize Appeals—

The finance department had been trying to systematize public appeals for funds. Its view was that the field should be left clear in the fall for the appeals of the ordinary peacetime community services and that only one drive for the auxiliary war services should be held in the spring, leaving the rest of the year clear for the government's own public financing.

"The amount of the united drive next spring has not been decided as yet, but it is likely to be a very large one," Mr Thorson said.

The joint appeal of the five organizations last spring raised $7,000,000 compared with a $5,500,000 objective and the Red Cross last fall raised $6,000,000 with a $5,000,000 objective.

May Close Office—

He said he anticipated the office of Maj. R. J. Watrous of Brantford, Ont., director of human and material resources, will be closed soon. This small office with only a handful of employees did useful work but now it seemed to be a duplication of other sections of the department.

He said th enational salvage campaign, now being conducted under Maj. Watrous, would be handled by another branch of the war services department.

More Food Boxes—

Mr Thorson said it was his understanding there now are about 70,000 British Commonwealth prisoners of war. The increase in the number of food boxes to be packed by the Canadian Red Cross was caused partly by an increase of prisoners and partly because of "some kind of difficulty in doing the packing in the United Kingdom."

He said one or two other organizations besides the six big ones may be allowed to participate in the united war services drive next spring. As was the case this year, the united drive will be known as Canadian War Services Fund, Inc.

Mr Thorson said Ms Justice Gordon felt the Red Cross activities should be restricted pretty well to such war work as aid to bombing victims in Britain, aid to prisoners of war, preparation for the care of wounded soldiers (not including hospitalization) and blood serum preparation, and he added—

"I think the Canadian Red Cross Society will be working largely as a wartime agent of mercy and that a number of its other activities will be dropped off."

Tobruk

Editorial From the New York Times, July 27th, 1941.

The British garrison holding Tobruk is now in its fifteenth week of siege, yet it holds out as firmly as it did in the beginning. New activity on the North African front suggests that its relief may be among the possibilities of the near future. But whether relieved or not, its garrison has already won imperishable laurels. It is understood to comprise a division of Australian troops with some Indian auxiliaries. The commander is General Leslie Morshead, whose tenacity and resource have brought him up from the ranks to divisional honors. For more than three months General Morshead and his tough fellow-countrymen have held Tobruk under conditions that would have defeated most garrisons. Tobruk itself, a collection of flat-roofed buildings around a bay of the Mediterranean, had no fortifications of inherent strength. The Australians dug themselves in. Their water-distilling plant was bombed and wrecked early in the siege. Their harbor is a graveyard of sunken ships to which only small craft can now obtain precarious access. The heat of an African Summer has been all but unendurable. But they have held every inch of their ground.

Warsaw fell after three weeks. Narvik was held by the British for six weeks before they evacuated it. Ieren, the Italian rock fortress in Ethiopia, lasted for seven weeks before it surrendered. Tobruk, without natural defenses, with its sea approaches cut to a minimum and under climatic conditions infinitely harder than in any of the other centers of resistance, still endures, unyielding and defiant.

PLACEMENTS
BREAKING all RECORDS

Our employment Department, always in close touch with business offices, reports a steady demand for graduates. Our problem this year is not to find good jobs — but to supply trained graduates to fill the demand. Early opportunities await those who qualify.

Office positions offer year-round income, pleasant environment, stimulating associates and a place of respect in the community. And best of all they offer opportunity for advancement and for security after the war is over.

Our Fall Term opens September 2, but you may enter immediately and thus begin earning that much earlier. Write for information.

GARBUTT BUSINESS COLLEGE
CALGARY, LETHBRIDGE, MEDICINE HAT

SIGN THE PLEDGE TO
Save Gasoline
50/50 Car PLEDGED TO SAVE GASOLINE

Let Your Car Wear Proudly This Patriotic Sticker!

Go to your friendly neighbourhood service station or your local garageman today. A surprise awaits you. He has changed. He will be as courteous and thoughtful as ever —glad to see you—anxious to do anything and everything he can to help you. But he is no longer a gasoline salesman. He is a gasoline SAVER. He will urge you to buy less instead of more. He will point out ways and means of saving gasoline.

He will tell you all about the "50/50" Pledge to cut your gas consumption by fifty per cent. He will invite you to sign. This proud and patriotic sticker for your car will mark you as a member of the wise and thoughtful band of car owners co-operating with the Government to save gasoline.

This is entirely a voluntary movement. It is not rationing. This the Government hopes to avert. But we are faced with a critical shortage of gasoline due to the diversion of tankers for overseas service and to the growing needs of our Fighting Forces.

There is no call for panic—no need for alarm —but this war is being fought with gasoline and we are fighting for our very lives. Sign the Pledge today and continue to save fifty per cent of your gasoline consumption.

It is also vitally important that you reduce the use of domestic and commercial fuel oil.

●

REMEMBER: The slower you drive, the more you save!

The Government of the DOMINION OF CANADA
Acting through
THE HONOURABLE C. D. HOWE, *Minister of Munitions and Supply*
C. R. COTTRELL, *Oil Controller for Canada*

17 easy ways towards a 50% GASOLINE SAVING
(Approved by Automobile Experts)

Reduce driving speed from 60 to 40 on the open road
Avoid jack-rabbit starts.
Avoid useless or non-essential driving.
Turn motor off when not in use do not leave idling.
Don't race your engine; let it warm up slowly.
Don't strain your engine; change gears.
Keep carburetor cleaned and properly adjusted.
Tune up motor, timing, etc.
Keep spark plugs and valves clean.
Check cooling system; overheating wastes gasoline.
Maintain tires at right pressure.
Lubricate efficiently; worn engines waste gasoline.
Drive in groups to and from work.
using cars alternate days.
For golf, picnics and other outings.
use one car instead of four.
Take those short shopping trips ON FOOT
and carry parcels home.
Walk to and from the movies.
Boat owners, too, can help by reducing speed.

Your regular service station man will gladly explain these and other ways of saving gasoline. Consult him.

GO 50 50 WITH OUR FIGHTING FORCES

Pledge myself to go 50/50 with our Fighting Forces by reducing my gasoline consumption by 50%
(Signed)

Spare and Share your Gasoline for VICTORY!

SERVE BY SAVING!
Now You Can Do Your Bit

Through the purchase of WAR SAVINGS CERTIFICATES every patriotic man, woman and child in Canada, regardless of station, is afforded an opportunity of making a personal contribution to Canada's War Effort.

When you buy WAR SAVINGS CERTIFICATES you save money for the future and supply "dollar ammunition" to back up the men who are fighting our battles overseas.

WAR SAVINGS CERTIFICATES are sold through all branches of this Bank. Backed by the Dominion of Canada, they are the safest kind of investment you can make. Held to maturity, they are worth 25% more than you pay for them. For every $4.00 you invest now, you receive $5.00 seven and one-half years hence.

Buy your first certificates to-day — then add to your investment regularly by purchasing at least one certificate every month.

WAR SAVINGS STAMPS

If you cannot afford to pay cash for a $5.00 certificate, use instead WAR SAVINGS STAMPS. These specially 25c WAR SAVINGS STAMPS (value $4.00) can be exchanged for one $5.00 certificate. WAR SAVINGS STAMPS are sold by all branches of The Royal Bank of Canada. Your nickels, dimes and quarters, as well as your dollars, are important in helping to meet war expenditures. Encourage your children to save through the purchase of WAR SAVINGS STAMPS.

●

The Misses Beatrice and Hilda Trollope returned to Calgary last week after spending a month's holiday with their parents.

●

Mrs Isobel Thurston and baby daughter are spending a few days at Nightingale.

Mrs Larsen reports that her four months old Plymouth Rock Pullets have started laying, and Mrs Owens has ewes with a second crop of lambs this year. The first lambs were born in January, the second in July. Mr Newall, Sr. has a bumper crop of raspberries.

Mr Jansen, who is a guest of Mrs Dick Jansen, had a heart attack on Saturday last and is confined to bed for two weeks by doctor's orders.

Mr and Mrs Trimble passed through Nightingale on Sunday morning en route to Drumheller. They will be returning on Wednesday.

Co-operation THAT COUNTS

There is perhaps no better illustration of co-operation between an industry and the people it serves than that of the implement industry and farming.

Its inception was the making available to other farmers the tools which one ingenious farmer developed to lighten his own labors and enable him to accomplish more in the always-too-short seasons.

Its support by farmers to the point which has enabled the building of organizations financially strong enough and technically equipped to carry on large scale experimental engineering has increased its efficiency and usefulness to the benefit of every farmer.

In the implement engineer, the farmer has had a partner ever intent on finding easier and more profitable ways of doing the jobs he has to do. The co-operation of the implement maker, in this respect, has transformed farming and made farm life pleasanter and more profitable — a co-operation that really counts.

Miss M. Silverthorne who is spending her vacation with her parents Mr and Mrs A. Silverthorne is leaving for Banff next week where she will lecture on Library Science at the Banff School of Arts. Miss Silverthorne is a member of the faculty of the Toronto University, and an M. A.

We are sorry to report that Mrs O. Edwards of Shepard, a former resident of Cheadle is seriously ill in the Calgary General Hospital.

Miss Jean Smith, badly burned two weeks ago is still in the Holy Cross Hospital. It will be a while yet before she will be allowed to come home.

Heavy taxes and talk of conscription But the farmers don't mind they say. If only that new gas restriction Would keep all the collectors away.

MILADY'S HOSE

What shall they be?

Silk, Rayon, Nylon, Lyle, Cotton, Cashmere, painted or nature's own?

It is a weighty problem!

Again with the Air Force wanting silk for their parachutes, the fair sex MUST forego the silken hose.

It is a strange world my masters.

Here again must the sense of self gratification give way to the urgent needs of warfare. And it should not cause much real concern.

We remember the day when milady was quite happy with a pair of good lyle hose. They were warmer too on frosty days.
